

Question Bank for IA-2

1. Which of these is a reason that companies might implement design thinking?

- a. It relies on risk-taking
- b. It creates more problems
- c. It eliminates mistakes

d. It accelerates effectiveness

2. Advantage of Business Process Modelling

- a. Align operations with business strategy
- b. Improves process communication and Increase control and consistency
- c. Improve operational efficiencies and Gain competitive advantage

d. All of the above

3. Design thinking is also focused on development, it takes the experience of the _____ as a starting point

a. End user or customer

- b. Owner
- c. Manager

4. Design thinking uses _____ to understand how people feel about using a service or product

a. Empathy

- b. Design
- c. Theory

5. In business most communication is done with the help or _____ that help you stay busy all the time.

a. ERP tools

- b. Mechanical tools
- c. Design tools

6. _____ method can be proposed to design complex software programs based on model

a. situation-based prototype

- b. Concrete prototype
- c. Simple prototype

7. Design thinking follows

- a. Waterfall Model

b. Agile methodology

- c. Both of these
- d. None of these

8. The three pillars of Scrum

a. clarity, testing, and flexibility

- b. test, communication and build
- c. test, copy and design

9. _____ model provide a legitimate result

a. Scenario based Prototyping

- b. Concrete Prototyping
- c. Simple prototyping

10. _____ is the process of setting goals, procedures and objectives in order to make a organization more competitive

a. Strategic management

- b. Innovation management
- c. Team management
- d. Group management

11. _____ concept has multiple aspects and dimensions

a. Innovation management

- b. Team management
- c. Group management

d. Strategic management

12. Pick the correct type of Innovations

a. Disruptive vs. Sustaining innovation

b. Radical vs. incremental innovation

c. The Innovation Matrix

d. Architectural vs. Modular Innovation

e. All of the above

13. _____ is related to the concept, product or service which will create new value to the existing market

a. Disruptive innovation

b. Sustaining innovation

c. Innovation Matrix

d. Modular Innovation

14. _____ is based concept of improving and growing the existing markets.

a. Sustaining innovation

b. Innovation Matrix

c. Modular Innovation

d. none of the above

15. _____ happens when a new technology completely disrupts existing business or economy and creates a new business model.

a. Radical innovation

b. Disruptive innovation

c. Sustaining innovation

d. none of the above

16. _____ refers to a series of small, gradually built improvements to existing products

a. Incremental innovation

- b. Disruptive innovation
- c. Sustaining innovation
- d. none of the above

17. _____ is described as the reconfiguration of existing product technologies.

- a. **Architectural innovation**
- b. Disruptive innovation
- c. Sustaining innovation
- d. none of the above

18. In _____ one or more components of a product is changed while the overall design stays the same

- a. **Modular innovation (or component innovation)**
- b. Disruptive innovation
- c. Sustaining innovation
- d. none of the above

19. _____ is an organization's process of reinventing or redesigning its corporate strategy to drive business growth, generate value for the company and its customers, and create competitive advantage

- a. **Strategic innovation**
- b. Disruptive innovation
- c. Sustaining innovation
- d. none of the above

20. The main objective of strategic innovation is to create competitive space for the products and services offered by the _____

- a. **Organization.**
- b. customer
- c. buyer
- d. none of the above

21. Innovation that harnesses new technology and creates a new business model. Has no clear competitors.

a. Radically disruptive

b. Radically sustaining

c. All the above

d. none of the above

22. Improvement on a product or process in an existing market that provides new value for the customer

a. Radically sustaining

b. Radically disruptive

c. All the above

d. none of the above

23. An incremental improvement in technology that leads to a dramatic disruption.

a. Incrementally disruptive

b. Radically sustaining

c. All the above

d. none of the above

24. Small and cumulative changes in an existing product, technology or service.

a. Incrementally sustaining

b. Incrementally disruptive

c. All the above

d. none of the above

25. Design impacts the business

a. True

b. False

26. Which of the below is incorrect?

- a. PepsiCo has turned Design Thinking into its strategy
- b. GE Healthcare has built a MR scanner for children using Design Thinking
- c. Air BnB avoided bankruptcy and turned profitable using Design Thinking
- d. Google has a 3 step process to bring about new innovations

e. All of the above are correct

27. Which of the following well known consulting firms are offering Design thinking as a solution

- a. McKinsey &Co.
- b. BCG
- c. Bain & Co.

d. All of above

28. Which of the following is not the mindset of a Design Thinker?

- a. Make it
- b. Learn from failure

c. Self oriented

- d. Empathy

29. What is design considerations are not linked with?

- a. Products
- b. Customers

c. Television

30. True or false, design thinking can be applied in other professions?

a) True

- b) False

31. The ultimate goal of design thinking is to help you design better

- a) Services
- b) Products

c) Experiences

d) All of above

32. _____ is an iterative and incremental method of managing development and design.

a. Waterfall Model

b. Agile Methodology

c. Cyclic Methodology

d. All of the above

33. _____ is an iterative and incremental method of managing development and design.

a. Waterfall Model

b. Agile Methodology

c. Cyclic Methodology

d. All of the above

34.BPM stands for

a. Building Product Management

b. Business Product Management

c. Business Process Modelling

d. Basic Product Management

35.what is the main goal of business processes modelling?

a. Understanding the process

b. Improving the process

c. documenting the process

d. All of the above

36.what is the main focus of agile methodology in virtual collaboration environment?

a. Flexibility

b. Cost effectiveness

c. Efficiency

d. Innovation
